

Prosperity and Abundance With the Angels of Awakening®

by Daisy Foss the Angelic Dream Wizard

Angel of Attraction by Laraine Krantz

What has happened to change the world we live in? Life used to be joyful and carefree; it made sense with no stress or worries. It was simple, all you had to do was be at one with nature and divine energies to co create your reality. Gradually over time, life has become distorted and we are told, "We must wake up from the dream, break free from the illusion of separation and dissolve all thoughts of duality." Everyone is talking about it, awakening, enlightenment and the loss of the ego. What does this mean to you and how do you find out more?

As the Angelic Dream Wizard, I run courses on the Angels of Awakening Process throughout the year in the Daisy Centres Angelic Healing Retreat in Glastonbury. Over four weekends together, we explore the comprehensive techniques that will enable you to realize your full potential. They are as follows Love ~ Preparation of Self. 2. Life ~ Growth of Self. 3. Creation ~ Empowerment of Self and Awakening. 4. Walking Your Talk. The Angels of Awakening certification will give you the experience to be an Angels of Awakening practitioner. Once you have completed all four workshops you will 'Find Your Wings and Fly'.

We also hold a class called 'Detox and Release from Stress the Angels of Awakening Way'. This is an opportunity to tackle old patterns and conditioning that have shaped your life, whilst having fun with the Angels.

This is followed by the 'Prosperity and Abundance the Angels of Awakening Way' class. We show you how you can create your own reality, your own abundant utopia. By believing in yourself and making the connection with your Angelic realm, call in the Angels of Awakening for help and guidance. For Prosperity to be part of your consciousness you must know yourself fully, and welcome numerous clearings and releases of old patterns from your karmic webbing within your energetic system. Don't buy into the fear matrix which is the web of destructive forces, stay heart centred.

"We look forward to the time when the power of love will replace the love of power. Then will our world know the blessings of peace." This original quote came more than a century ago from the British Prime Minister William Gladstone. When he died in 1898 he had achieved unparalleled success in his policy of setting the individual free from a multitude of obsolete restrictions. Both Jimi Hendrix and Bob Marley adapted this saying to get their messages across, "When the power of love overcomes the love of power the world will know peace". ... "Conquer the devils with a little thing called love!"

As you live your life from the perspective of the "Power of Love" be creative, co create, be happy in your work and feel the achievements. All too often it is the "Love of Power" that drives the economy. Everything seems to be moving so fast, life only seems to be about money and power. Hidden government spending and excessive deceit is being exposed; anyone not in their integrity or simply a cheat is being revealed and will be made to pay back false expenditure. The veils are becoming thinner between the issues and dimensions, it is very important to be authentic, to speak your truth and be honest with yourself at all times.

How did the 'Money Meltdown' begin? It all started with the money markets collapsing in 2008 and early 2009, when the global relationship with money appeared to shift. This period
